WORK EXPERIENCE

Datum Brain   September 2023 - Present
Software Engineer-Intern   *Lahore, Pakistan*

· As a dedicated **Backend Developer** at **Datum Brain** with a nice technologies, including **Golang** and **Python**, During my Five-month internship, I played an instrumental role in advancing the technological landscape of the company. I am proud to have excelled in the following areas, which contributed significantly to the success of the organization.

· Led compliance-focused data scraping for a **microfinance app**, optimizing processes and reducing processing time by **20%**.

· Developed **OCR** for document verification, processing 5,000+ documents monthly with a 15 accuracy improvement.

· Implemented **machine-readable text extraction for passports**, automating processes and achieving **98%** accuracy.

· Refactored **ERP** Invoice module, changing framework to **Echo**, resulting in a 40 response time improvement and **25%** fewer err.

EDUCATION

Diploma in Information Technology   2020 - 2021
Technical Vocational Umarzai,
Umarzai, KPK, Pakistan

PROBLEM SOLVING

Golang - LeetCode (link)

OTHER INFORMATION

Consistently demonstrated problem-solving skills, effective communication, and the ability to work collaboratively in a team.

Adept at adapting to new technologies and frameworks, as evidenced by successful projects during the internship.
